 **Freedom**
for Animals

There are over **187 mobile zoo businesses** in the UK using thousands of animals. The industry is virtually **unregulated**, so the animals are very vulnerable.

Reptiles and other exotic animals may transfer **illness** or **disease** to your child.

ANIMAL WELFARE CONCERNS

In late 2013, a mobile zoo company owner was convicted of **34 animal welfare offences**. The animals were being kept in **awful conditions**. Because mobile zoo companies are not inspected or checked, many more animals may be suffering.

TRAVELLING AND HANDLING IS STRESSFUL FOR ANIMALS

Animals spend **long hours travelling** up and down the country to be used in mobile zoo events.

Travelling and handling can be **very stressful** for animals; particularly those belonging to exotic species.
